

Includes all of the mounting accessories from the Surf HERO camera, minus the waterhousing and camera. Perfect for mounting your Helmet HERO or other quick-release HERO camera on to a surfboard.

Tested and approved by pro surfers in macking Puerto, Northern California, and Hawaii, the Surf HERO is a revolutionary quick-release board-mountable camera.

The Surf HERO includes two, removable mounting options:

A stick-on baseplate that takes a couple of minutes to set up and go.

An FCS? compatible plug mounting system that allows you to allen-screw your camera into the deck of your board when you install an FCS? center fin plug into the deck of your board. Easily done by any ding repairer or shaper.

Both options allow the camera to be quickly attached and removed from your surfboard.

Compatible with all quick-release GoPro cameras. NOT compatible with the Digital HERO 5 Wrist Camera.

What's Included:

- 1 High-Impact, 3M? Adhesive Mounting Disc with Integrated Leash System
- 1 FCS?-Compatible Male Plug Mount for Attaching to FCS? Center Fin Plug
- 1 Rubber Quick-Release Stopper Lock
- Warranty: One Year

Camera not included
