

INDOOR AMPLIFIERS

AM 6140

Features:

- 220V Main Power
- Complete range of mixers filters attenuators and indoor amplifiers
- Complete mast amplification range ideal for digital TV
- Models adaptable to every need (110 and 100dBuV)
- Band-adjustable gain
- Very low noise factor
- interference-free, thanks to electromagnetic shielding
- Very easy assembly and hook-up (F connectors included)
- High-gain indoor amplifiers
- Made in Europe

Technical Specifications:

Model		AM6140
Frequency range	forward path	47 ~ 862MHz
	return path	
Gain		25dB
Frequency response		±0.5dB
Gain adjustment		18dB
Test point attenuation		
Power consumption		230V / 50Hz / 6VA
Operating temperature range		-20°C +50°C
Dimensions/Weight (packed)		88 x148 x53 mm

Specifications subject to change without notice. V.2007.03
